 body parts), where they live, and what they like to eat. insects, and pets you see as you walk. Discuss how the animals look (color, size, might see on a daily basis. As you walk outside, talk about the birds, squirrels, kinds of animals. Help your child practice observing and describing animals you In class, your child will be learning how to make observations about many different
## 3. Go on a Nature Walk and Talk about Animals

## five).

 with your child about the words in the song that rhyme (bees and sees, hive and Beehive" are on this back of this letter-have your child recite the rhyme and talk of Ware," "Here is the Beehive," and "Five Little Ducks."The words to "Here is the Your child may come home singing and doing the motions for "An Old Person 2. Sing Nursery Rhymes students what they know about these animals as you read. read aloud. As you read, point to and label the various animals in the story. Ask Ask your child to choose stories that have animals as the characters for you to remember what they are learning about at school: Below are some suggestions for activities you might do at home to help your child stories, rhyming, drawing and writing, and counting syllables in words. in our Dramatic Play Center! In our Small Groups, we will also be practicing telling animals' body parts help them survive. We will even have an Animal Hospital set up knows with the class. At school, we will learn the names of many animals and how dog or goldfish at home. We can't wait for your child to share the things s/he already child might already know lots of things about animals-you might even have a pet

For the next few weeks, your child will be learning all about animals at school. Your

## Animal Body Parts Riddles

Describe each animal on the page by naming and talking about its body parts (see examples at left). Ask your child to point to and name the animal you are describing.
"I spy an animal with pointy ears, whiskers, a tail, four, legs, and four paws. It makes the sound 'meow'." (Cat)
"I spy an animal with four legs and a trunk." (Elephant)
"I spy an animal that is very small and has wings that help it fly." (Butterfly)

"I spy an animal with legs for hopping. It makes the sound 'ribbit'." (Frog)
"I spy an animal with fins and a tail that it uses to swim." (Fish)

## Animal Syllables

Help students say the name of each animal and clap the syllables in the animals' names. Then ask students to color in the correct number of squares to represent the number of syllables in the animals' names.

## Drawing Zigzag Lines

Ask your child to decorate the king and queen's crowns with zigzags on the first two rows. Then, have your child use other writing strokes to complete the crowns. Your child might use horizontal or vertical lines, dots, circles, or diagonals in addition to zigzags.

drawing. You can also write your child's name so s/he can copy it. day. Encourage your child to practice writing his/her name whenever she is At school your child is practicing writing his/her name to sign in to school each 5. Practice Writing Name example: brush and mush, or plate and bait) The words can be real or made up, but should end with the same sound (for daily routines, encourage them to make silly rhyming pairs using everyday words. Your child is doing lots of activities to practice rhyming. As students go about their 4. Practice Rhyming and what they might like to eat. with him/her about where those animals might live (pond, ocean, forest, desert) Encourage your child to play with his/her stuffed animals. As your child plays, talk 3. Play with Stuffed Animals
recite this rhyme for you and talk about how hens and other animals lay eggs. to "Hickety, Pickety, My Black Hen" are on this back of this letter-have your child for "The Eensy, Weensy Spider" and "Hickety Pickety, My Black Hen." The words is learning at school. Your child may come home singing and doing the motions Encourage him/her to sing the old favorites, and to share the new rhymes s/he At this point in the school year, your child has learned quite a few nursery rhymes.

## 2. Sing Nursery Rhymes

 like to live.to stay alive. Talk about what certain animals like to eat and drink, and where they As you read stories about animals, talk with your child about what real animals need

## 1. Read Aloud Each Day

remember what they are learning about at school:
Below are some suggestions for activities you might do at home to help your child since we will be learning all about words that start with 'mmm' (like monkey). rhyming, drawing, and writing. Your child might come home saying the 'mmm' sound, insects, fish, and mammals. In our Small Groups, we will be practicing telling stories, animals and their mothers. S/he will also learn about groups of animals, such as birds, learning more about animals in the coming weeks. Your child will learn about baby Children love learning about and seeing pictures of animals, and we will continue

## Tell the Story of "The Eensy Weensy Spider"

students sing "The Eensy Weensy Spider." Then, help students glue or tape the pictures in order on a sheet of paper from left to right. Use the words first, next, and last to describe the order of events in the song.

## Observing Animals

Ask your child to observe an animal that she sees every day. Your child might choose a pet or a familiar wild animal such as a squirrel, an ant, or a bird. Then ask her to pretend she is a scientist who is studying this animal. Ask each question out loud. Listen to her answer, then write it down, repeating the words aloud as you write. Now your child has made a scientist's journal of her observations of an animal.
What kind of animal is this?

## Make a Rhyme

Point to each picture on the page and tell students what it is. Then, tell students to draw a line between the two things that rhyme. Remind students that rhyming words sound the same at the end. Encourage students to say the words out loud to see if they rhyme or to check their work.

## Caterpillar to Butterfly Life Cycle

Help students cut out the four pictures, or cut them out for students. Review the life cycle of a butterfy, and help students glue or tape the pictures in order on a sheet of paper from left to right. Use the words egg, caterpillar, chrysalis, and butterfly to describe the life cycle.

Birds lay eggs．Birds have to take care of their eggs until they hatch．When the eggs Some beaks are long and big，some are shorter and smaller． Beaks are hard and pointy．Birds use their beaks to peck，eat food，and drink water． legs on which they can stand．Birds have a special type of mouth called a beak． are covered in feathers that keep their bodies warm and dry．All birds have two have wings that they can flap．Birds different kinds of birds，but all birds They are all birds．There are many
 pue ‘əןбеә ue ‘иәуગ！Чว е моч моия each look different．But do you чวицроб е рие ‘əббә ‘иәяગ！чว $\forall$

look different from one another，animals that are alike belong to the same group
There are many different kinds of animals in our world．Even though animals sןDu！u甘 fo sdnoג and fish．Read the text to your child and talk about different groups of animals， Today your child listened to a read－aloud about three groups of animals：birds，insects，

How are clownfish, goldfish, and sharks all the same? They are all fish. There are many different kinds of fish, but all fish
 tails to swim through the water.

All fish live and swim underwater. Some
fish live in the ocean where the water
is salty; it is called salt water. Some fish live in lakes, ponds, and streams where the water isn't as salty. They live in fresh water. Fish don't need air to breathe. Fish
have gills that let them breathe underwater.

Fish and birds aren't the only groups of animals that have things in common. How are a beetle, a butterfly, and an ant the same? They are all insects. Insects come in all colors and shapes. They have six legs. Insects can look very different from one another but they are all very small. Most insects are smaller than the tip of your finger.

There are all kinds of animals. Some animals have things in common and belong to special groups. Some animals are birds, some animals are insects, and some animals are fish.

## Circle the Sound Picture:

m
Help students identify and circle all sound pictures showing $/ \mathrm{m} /$. Help students remember what the sound picture /m/ looks like by drawing it on a sheet of paper or having students draw it on paper or in the air. If a picture does not show the sound picture for $/ \mathrm{m} /$, students should draw a line through it.

## Mark These Trucks

Help your child practice the writing stroke $X$ by drawing an $X$ to fill each box on the trucks below. If your child is ready, have her practice drawing X's and other writing strokes on a blank piece of paper
