## PREFACE.

---

In publishing this Oriya-English Dictionary a few words of introduction appear necessary. It is a new compilation based on those of Rev. Amos Sutton and Mr. William Brooks. Those who are acquainted with Mr. Brooks' book will find that many words not in ordinary use have been omitted and a large number of other useful words introduced. The book has been increased by about 40 pages. It is not claimed that the present compilation is in any way exhaustive, but it is hoped that it may be found more useful than its predecessors. In giving the English equivalents of the Oriya words an attempt has been made to put the one *mainly* used in the first place, those following being in order of importance, as far as possible. Thus, in some cases, the root meaning of a word may be given the last place. This plan has been adopted so that non-Oriyas consulting the book may be able to know, with some amount of certainty, when several equivalents are given for one Oriya word, which of them is in common use.

It is often difficult to know what words may be used in ordinary polite conversation and what words are only used in literature. As a guide in this direction some words have an asterisk (\*) against them. The words with the \* are not generally used in conversation, but are to be met with in literature. It is hoped this will be found helpful to the student.

Great care has been taken and a large amount of time expended in the endeavour to give the right shades of meaning in English, but success may not have been attained in all cases.

The Compiler wishes to place on record the very valuable assistance he has received from Pandit Ram Krishna Panda and the Rev. Joyananda Singh. But for their help he could not have got through the work satisfactorily. Words and their meanings have been discussed with them and the greatest care has been taken to give the most useful equivalents and to express the exact shades of meaning.

### Fractions.

ପାଞ୍ଚ or ପା, a quarter, is thus represented ...	...	1
ଅଧ, ଅଧେ, ଅର୍ଦ୍ଧ, ଅର୍ଦ୍ଧେକ, half ...	...	୨
ପରୁଦ୍ଧେ, or ତିନିପା, three-quarters ...	...	୩
ଦେଇ, one and a half ...	...	୧୨
ଅତୀତ, two and a half ...	...	୨୨

These are irregular. In all other cases a quarter more than an even number is expressed by prefixing **ସଭୁଅ**, to the number; a half by prefixing **ସାତେ**; and three-quarters by prefixing **ପରୁଦ୍ଧେ** to the even number. *Exam.* ସଭୁଅ ତିନି, three and a quarter; ସାତେ ତିନି, three and a half; ପରୁଦ୍ଧେ ଚାର, three and three-quarters, viz., a quarter less than four.

Fractional parts are generally expressed by dividing the Rupee into sixteen annas or parts. *Exam.* ସାତ ଅଣା, seven annas, or seven-sixteenths; ଦଶ ଅଣା, ten annas, or ten-sixteenths.

*The signs are as follow:—*

/	୩/	୩/	୧	୧/	୧୩/	୧୩/	୨	୨/	୨୩/	୨୩/	୩	୩/	୩୩/	୩୩/	୧
$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{6}{16}$	$\frac{7}{16}$	$\frac{1}{2}$	$\frac{9}{16}$	$\frac{10}{16}$	$\frac{11}{16}$	$\frac{3}{4}$	$\frac{13}{16}$	$\frac{14}{16}$	$\frac{15}{16}$	1
